

Men Can Stop Rape

Personalize the issue - think about how you might react/feel if someone close to you (mother, sister, brother) were raped or assaulted.

Be proactive - when others make comments or jokes that trivialize or glorify rape, firmly let them know that you don't appreciate it.

Examine your own views and assumptions about rape and sexual assault, and then go out and learn more about what we as individuals can do to stop rape.

Be pro-feminist - being pro-feminist doesn't mean hating men, but it does mean working toward respect for women.

Be sensitive - the trauma of being raped is both physical and psychological, and both can take years to heal.

Get involved. Develop an opinion, and speak out about it.

White Ribbon Campaign

The purpose of the White Ribbon Campaign is to enable men to non-verbally state to the community and each other their disagreement with tolerance of sexual assault and rape.

By wearing the white ribbon, you are committing to actively work against sexual assault and rape in your life and your world.

Please encourage other men you know, both students and College employees to wear the white ribbon from November 29th to December 6th.

Rape and Sexual Assault Facts

- Sexual Assault victims/survivors are 13 times more likely to commit suicide than a non-victim.
- Haverford's non-institutional sexual assault contact people receive, on average, one phone call **per week** about an incident.
- 75% of sexual assaults occur before the victim is 24 years old.
- 99% of rapes are committed by men.
